Homo sapiens
columnar/cuboidal epithelial cell
stratified cuboidal epithelial cell
endothelial cell of artery
blood vessel smooth muscle cell
hepatic portal fibroblast
afferent neuron
biliary ductule
hepatic oval stem cell
hepatic artery
interstitial tissue
nerve
hepatic portal vein
periportal region hepatocyte
midzonal region hepatocyte
centrilobular region hepatocyte
central vein of liver
portal triad
intralobular bile duct
hepatic cord
hepatocyte
liver
liver lobule
plasmacytoid dendritic cell
gamma-delta T cell
CD8-positive, alpha-beta memory T cell
type I NK T cell
CD8-positive, alpha-beta memory T cell, CD45RO-positive
CD1c-positive myeloid dendritic cell
vein endothelial cell
conventional dendritic cell
dendritic cell, human
hepatic pit cell
endothelial cell of lymphatic vessel
lymphatic vessel
endothelial cell of hepatic sinusoid
hepatic sinusoid
Kupffer cell
natural killer cell
CD4-positive, alpha-beta T cell
leukocyte
hepatic stellate cell
connective tissue
liver perisinusoidal space
liver stroma
