

hematopoietic stem cell

splenic artery

sympathetic nerve plexus

myofibroblast cell

CD141-positive myeloid dendritic cell

T follicular helper cell

CD1c-positive myeloid dendritic cell

effector CD8-positive, alpha-beta T cell

plasmacytoid dendritic cell, human

dendritic cell, human

CD14-positive, CD16-low monocyte

CD8-positive, alpha-beta cytotoxic T cell

gamma-delta T cell

plasma cell

Homo sapiens

memory B cell

follicular dendritic cell

platelet

erythrocyte

CD4-positive helper T cell

vein endothelial cell

spleen perifollicular zone

class switched memory B cell

germinal center B cell

splenic marginal zone macrophage

part of

marginal zone of spleen

splenic tingible body macrophage

splenic white pulp macrophage

plasmablast

CD8-positive, alpha-beta T cell

natural killer cell

neutrophil

naive thymus-derived CD4-positive, alpha-beta T cell

CD4-positive, alpha-beta memory T cell

splenic red pulp macrophage

part of

red pulp of spleen

has part

splenic endothelial cell

reticular cell of splenic cord

part of

splenic cord

penicillar arteriole

part of

spleen central arteriole

part of

white pulp of spleen

part of

spleen pulp

spleen B cell corona

part of

spleen secondary B follicle

spleen germinal center

part of

spleen primary B follicle

part of

naive B cell

spleen trabecular artery

part of

trabecula of spleen

spleen trabecular vein

part of

trabecula of spleen

group 3 innate lymphoid cell, human

lymphatic vessel

endothelial cell of artery

naive thymus-derived CD8-positive, alpha-beta T cell

CD8-positive, alpha-beta memory T cell

regulatory T cell

splenic vein

transitional stage B cell

spleen capsule

part of

spleen

hilum of spleen

part of

spleen

red pulp of spleen

rdfs:subClassOf

spleen pulp

spleen central arteriole

part of

white pulp of spleen

spleen secondary B follicle

part of

white pulp of spleen

spleen primary B follicle

has part

naive B cell

trabecula of spleen

part of

trabecula of spleen
