Homo sapiens
columnar/cuboidal epithelial cell
stratified cuboidal epithelial cell
biliary ductule
bile duct
esophagus muscularis mucosa
hepatic oval stem cell
intralobular bile duct
periportal region hepatocyte
midzonal region hepatocyte
centrilobular region hepatocyte
hepatocyte
hepatic cord
liver
afferent neuron
endothelial cell of artery
blood vessel smooth muscle cell
nerve
hepatic artery
portal triad
liver stroma
hepatic portal fibroblast
interstitial tissue
hepatic sinusoid
natural killer cell
hepatic portal vein
connective tissue
endothelial cell of hepatic sinusoid
Kupffer cell
CD4-positive, alpha-beta T cell
plasmacytoid dendritic cell
gamma-delta T cell
CD8-positive, alpha-beta memory T cell
liver lobule
type I NK T cell
conventional dendritic cell
dendritic cell, human
CD8-positive, alpha-beta memory T cell, CD45RO-positive
CD1c-positive myeloid dendritic cell
hepatic pit cell
central vein of liver
vein endothelial cell
leukocyte
endothelial cell of lymphatic vessel
lymphatic vessel
hepatic stellate cell
liver perisinusoidal space
