arteriole of lymph node
venule of lymph node
capsule of lymph node
trabecula of lymph node
myofibroblast cell
lymph node tingible body macrophage
memory B cell
T follicular helper cell
centrocyte
naive B cell
lymph node germinal center mantle zone
follicular dendritic cell
B cell zone reticular cell
centroblast
lymph node germinal center dark zone
lymph node germinal center
lymph node primary follicle
lymphatic endothelial cell of subcapsular sinus ceiling
subcapsular sinus ceiling
T follicular regulatory cell
T cell zone reticular cell
lymph node germinal center light zone
lymph node secondary follicle
cortex of lymph node
CD1c-positive myeloid dendritic cell
naive thymus-derived CD4-positive, alpha-beta T cell
CD4-positive, alpha-beta memory T cell
cytotoxic T cell
T-helper 17 cell
plasmablast
naive thymus-derived CD8-positive, alpha-beta T cell
regulatory T cell
lymph node interfollicular cortex
CD8-positive, alpha-beta memory T cell
T-helper 1 cell
T-helper 2 cell
natural killer cell
gamma-delta T cell
plasmacytoid dendritic cell, human
CD141-positive myeloid dendritic cell
dendritic cell
monocytoid B cell
plasma cell
mast cell
lymph node paracortical sinus
lymph node paracortical cord
lymph node paracortex
pericyte
high endothelial venule of lymph node
sympathetic nerve
sympathetic neuron
hilum of lymph node
B cell
macrophage
T cell
lymphatic endothelial cell of trabecula
lymph node medullary cord
lymphatic capillary
blood vessel endothelial cell
medullary reticular cell
medullary venule of lymph node
lymph node vein
lymph node medullary sinus
medullary arteriole of lymph node
lymph node artery
endothelial cell of lymphatic vessel
efferent lymphatic vessel
lymphatic vessel smooth muscle cell
Homo sapiens
lymphatic endothelial cell of medulla ceiling
lymphatic vessel
afferent lymphatic vessel
lymph node subcapsular sinus macrophage
subcapsular sinus floor
trabecular sinus of lymph node
subcapsular sinus of lymph node
lymph node marginal reticular cell
medulla of lymph node
lymph node
