Homo sapiens
simple columnar epithelial cell
pancreatic acinar cell
pancreatic acinus
pancreas exocrine glandular cell
pancreatic goblet cell
epithelial cell of exocrine pancreas
columnar/cuboidal epithelial cell
pancreatic centro-acinar cell
type EC enteroendocrine cell
pancreatic ductal cell
intercalated duct of pancreas
intralobular duct
interlobular duct
major duodenal papilla
common bile duct
extrapancreatic duct
pancreatic duct
dorsal pancreatic duct
smooth muscle cell
sphincter of hepatopancreatic ampulla
hepatopancreatic ampulla
ventral pancreatic duct
adipocyte
connective tissue
basal lamina of epithelium
pancreatic stellate cell
fibroblast
stromal cell of pancreas
pancreas mesenchyme
stroma of pancreas
pancreatic epsilon cell
pancreatic D cell
pancreatic PP cell
pancreatic endocrine cell
gastrin secreting cell
type B pancreatic cell
pancreatic A cell
islet of Langerhans
dendritic cell
B cell
lymphocyte
macrophage
T cell
neutrophil
granulocyte
exocrine pancreas
endocrine pancreas
parenchyma of pancreas
pancreatic lobule
head of pancreas
uncinate process of pancreas
body of pancreas
tail of pancreas
ventral pancreas
dorsal pancreas
pancreas
