splenic tangible body macrophage
Homo sapiens
plasmablast
B cell
spleen secondary B follicle
spleen primary B follicle
spleen germinal center
T follicular helper cell
T follicular regulatory cell
germinal center B cell
follicular dendritic cell
splenic white pulp macrophage
spleen B cell corona
naive B cell
CD8-positive, alpha-beta memory T cell
periarterial lymphatic sheath
CD8-positive, alpha-beta cytotoxic T cell
gamma-delta T cell
regulatory T cell
naive thymus-derived CD4-positive, alpha-beta T cell
CD4-positive, alpha-beta memory T cell
naive thymus-derived CD8-positive, alpha-beta T cell
transitional stage B cell
effector CD8-positive, alpha-beta T cell
white pulp of spleen
smooth muscle cell
endothelial cell of lymphatic vessel
CD1c-positive myeloid dendritic cell
CD141-positive myeloid dendritic cell
myofibroblast cell
CD4-positive helper T cell
catecholaminergic neuron
splenic marginal zone macrophage
plasmacytoid dendritic cell, human
group 3 innate lymphoid cell, human
marginal zone B cell of spleen
endothelial cell of artery
splenic endothelial cell
splenic artery
sympathetic nerve plexus
splenic vein
lymphatic vessel
spleen capsule
spleen trabecular vein
spleen trabecular artery
trabecula of spleen
hilum of spleen
spleen pulp
spleen central arteriole
penicillar arteriole
marginal zone of spleen
spleen pericircular lymphatic sheath
spleen
red pulp of spleen
splenic sinusoid
stromal cell
class switched memory B cell
vein endothelial cell
conventional dendritic cell
splenic red pulp macrophage
reticular cell of splenic cord
splenic cord
CD8-positive, alpha-beta T cell
hematopoietic stem cell
dendritic cell, human
platelet
CD14-positive, CD16-low monocyte
erythrocyte
monocyte-derived dendritic cell
leukocyte
plasma cell
CD14-positive, CD16-low monocyte
natural killer cell
memory B cell
mural cell
cell
